

Con Artists 'Clean' Septic Tank, Continue Operations in Area

Yet another con artists' game was played in the eastern part of the county last week, this time in the Westerville area, as an outfit moved in to "clean" a septic tank. A post-date check will save the victims, however.

According to Deputy Sheriff S. C. Courter, alleged con artists went to the home of Scott Graves, 78 Moss Rd., north of Westerville last Wednesday offering the service of septic tank cleaning. Mrs. Graves was home and talked to three men who told her they would clean her septic tank while they were there for \$35, but if they had to come back, they would charge \$50 and, in either case, there would be extra charges for extra loads.

Mrs. Graves notified her husband

Prosecutor Files First Tax Suits

County Prosecutor Henry Shaw filed the first delinquent taxes and penalties from the 1971 Delinquent Land Tax Notice which appeared in the News Dec. 9 and Dec. 30.

According to the Auditor's office, collection of back taxes has been slow since the last publication of the list. Shaw told the News that the burden is on the taxpayer to come forward with the taxes. As court costs must also be figured in. He said that costs alone averaged about \$150 per action for delinquent taxes paid after the suits were begun last year.

Five suits filed Tuesday included actions started against Wesley W. and Loretta V. Horn, 13938 Fancher Rd., for \$1,808.49 in taxes and penalties on 35 acres in Harlem twp.; Richard T. and Jane C. Jones, 7044 Africa Rd., for \$3,594.85 in taxes and penalties on 24.316 acres in Orange twp.; Oliver W. and Marguerite W. Big Walnut Board Sets Temporary Appropriations, Awaits Figures

Because guidelines from the State Department of Education were not available yet, Big Walnut Board of Education passed only a temporary appropriations measure during its Monday evening meeting.

Board members discussed appropriations for 1972 as scheduled on the agenda but were unable to take action when State Department officials reported Monday afternoon that "bugs in the computer prevented them from having the print out on a new state foundation or state funding formula."

Close Hills-Miller Road

County Engineer Fred Stults told the News Tuesday that county bridge crews are working on a small bridge on Hills-Miller Rd., Troy Twp. Rd. 192, north of Delaware, and have closed the road between US 23N and Troy Rd. Stults told that the replacement of the existing bridge will take around six weeks, weather permitting, but that the road will be open on bad weather days when the crew cannot work.

Weekend Fires Level Two Homes, Result in No Injuries

Sub-zero weather over the weekend resulted in house fires as over-worked fuel oil stoves ignited. Informed and sent a family of eight into the cold and a man and his dogs searching for help.

Top photo is of the remains of the Charles Burke home, 5729 Worthington Rd. after fire sent Burke, his wife, and six children out into the cold early Sunday morning. No one was injured in the blaze but the family lost everything.

Organizations, churches, and Good Samaritans around the central Ohio area responded to the

Burkes' plea for help and reports are that they have moved into a new home in Powell and are well taken care of after their tragedy.

Bottom picture shows the remains of the cottage in which Charles Blackwell lived at Cedar Lake near Olive Green. Blackwell was routed by flames early Saturday morning when the stove in front of the chimney started a fire. Blackwell was not injured as he was awakened by one of his dogs in time to escape.

He, too, lost everything in the blaze, including two of his dogs which reportedly got out of the in-

ferno but decided to crawl back under the debris during the night. The Blackwells are now living in Dennis Cremons' house, also at the Lake. Cremons and his father own Cedar Lake.

The new date for the viewing is Feb. 10 at 10 a.m. and Flaher told that the group will still begin its inspection of the joint ditch between Radnor twp. in this county and Prospect twp. in Marion county as the northernmost terminus of the project. The hearing date was not changed and remains for April 6 in the Delaware commissioners' office.

Sub-Zero Weather, Fuel Oil Heaters Cause Three Fires

FAMILY OF EIGHT RELOCATES IN POWELL; BARKING DOGS, QUICK ACTION SAVE LIVES

Sub-zero temperatures and faulty fuel oil stoves and flues resulted in three fires in the vicinity over the weekend, one burning a family of eight out of their Worthington Rd. home, another forcing a Porter twp. man from his home, and a third causing little damage when an alert Hartford Rd. man was able to smother the flames before the fire had spread.

Galena Volunteer Firemen worked for about three hours in a bitter -16 degree air early Sunday morning as flames sent the Charles Burke family from their home at 5729 Worthington Rd. Fire Chief Fred Hummel told the News the 1:30 a.m. alarm brought about 20 men to the scene with all Galena's equipment plus one pumper from BST Fire Department to help fight the blaze.

"By the time we were called and had arrived," Chief Hummel told, "the main heat of the blaze was trapped between two tin roofs and there wasn't much we could do to save anything."

The Burkes and their six children living at home were able to get out of the house without injury but with only the clothes on their backs as personal property. Friends, church groups, and Good Samaritans from all over central Ohio responded to calls for clothing and household articles for the Burkes announced

over local radio and television stations. As of Tuesday morning, according to Mrs. Hummel, the family had found a place to live in Powell and were extremely thankful for all the aid given them since the tragedy.

Chief Hummel estimated the damage to the building at between \$5,000 and \$15,000. "LeVeque, Inc., owns the property and hasn't yet set a value on the house." No estimate was available on the contents of the building.

"We had a real good turnout of

men for the bitter cold," Chief Hummel told the News, "and we appreciated the help the BST boys gave us. Battling the blaze was bad, but battling the 16 degrees below was tough enough also." Chief Hummel lauded the efforts of the Galena Auxiliary women who braved the elements to serve coffee and sandwiches at the fire and breakfast back at the firehouse when the men returned to thaw out about 4:30 Sunday morning.

Porter twp. man credits his dog with saving his life in an early morning blaze Saturday. Faulty fuel oil stove in a cottage at Cedar Lake, north of East Liberty, where Charles Blackwell lived was cited as the cause of that fire by Porter Chief Larry Cady.

According to Mrs. Dennis Cremons, whose father-in-law, Everett, owns the Lake and the cottage, Blackwell was asleep about 5:50 a.m. Saturday when one of his dogs awakened him to see one room of the cottage engulfed in flames. Blackwell ran in his stocking feet from the cottage about 400 feet to the Cremons' residence to awaken help with temperatures hovering around 10 below zero.

Mrs. Cremons said phone service was out of order in the area at the time and her husband, Dennis, headed toward Olive Green to alert the firemen and was passed by the trucks on their way to the fire.

Joint Board Changes Viewing Date for Darst Ditch Project

Marion and Delaware county commissioners changed the viewing date for the Darst Ditch Project Monday after complications concerning filing deadlines arose according to Commissioner Don Fisher of Delaware.

The new date for the viewing is Feb. 10 at 10 a.m. and Flaher told that the group will still begin its inspection of the joint ditch between Radnor twp. in this county and Prospect twp. in Marion county as the northernmost terminus of the project. The hearing date was not changed and remains for April 6 in the Delaware commissioners' office.

Joint Juvenile Detention Board Is Encouraged by Urban Affairs

Joint Juvenile Detention Board was told "we don't foresee any problems" by representatives of the Urban Affairs Department regarding federal funding for the project when men from that office met with the Board Tuesday evening.

According to Secretary of the Detention Board, Don Flaher, that body will file their applications with the Urban Affairs Department within the next week to ten days for a \$162,500 grant and that they are shooting for letting contracts by July 1 of this year. Urban Affairs, which Flaher added is actually no longer called by that name, has a local office in Columbus which also handles federal grants. This year's grant would represent about 50% of the costs of the

construction of the four county Juvenile Detention facility, to be located near Marysville. With Delaware in the joint project are Union,

General Fund Appropriations Increase \$264,371 Over 1971

Delaware county commissioners approved \$1,450,456.39 in General Fund monies for the 1972 Budget for a total county budget, including eight other funds, of \$3,076,113.39.

Commissioner Reed told the News that this figure is higher than that proposed for the operation of the county because it includes initial costs of equipment which federal funds will cover when approved.

Initial costs of the equipment, according to the appropriations, are \$73,500 while the remainder of the \$192,500 will go toward salaries for men to operate the equipment, supplies, and contracts with Liberty twp. and Delaware city as reimbursement for runs they make.

Single largest appropriation, department-wise, will go toward the Sheriff's Department with a total of \$180,815.00. This figure increased over \$16,000 over last year's budget and includes \$114,295 for employees' salaries and \$40,000 for equipment.

County home appropriations is the third largest appropriation from the General Fund at \$120,860.00 with an increase of just over \$9,000 above last year's.

Single largest increase in appropriations over last year's is for the Board of Elections, reflecting the fact that this year there are two elections to pay for—the

county-wide ambulance system which as yet has not received approvals for state and federal grants. That figure amounts to \$192,500.00 in the budget.

Phone Company Invests \$800,000 In Sunbury Area

Pataskala District Manager for United Telephone Company of Ohio, Richard Blank, revealed that over \$800,000 was spent during 1971 for improvement and expansion of telephone service in Sunbury-Galena exchange.

Blank reported that over \$700,000 was invested in construction of the new exchange building and installation of the central office equipment. Cable conduit and the consolidation of Sunbury and Galena exchanges represented, according to Blank, an additional expenditure of nearly \$100,000.

Company officials claim over 18,500 feet of cable was placed in Sunbury and Galena. Improving transmission and making four-, two-, and one-party service available to subscribers in the area. Either Enforce Laws or Stop Making Them
Without enforcement, laws are worthless. Why should the Village of Sunbury make laws if the council does not insist upon enforcement of those laws?

It finally becomes quite embarrassing to have to harangue year after year about the dog problem in our village. It is so easy for council to pass an ordinance and then forget about it. If that ordinance is passed and, at an expense to the village, shouldn't the elected members of council feel forced to enforce the stipulations laid down in that ordinance?

On April 5, 1967, Sunbury Village Council passed Ordinance No. 548 which stated that all dogs in the village must be confined to the owner's premises or be held on leash. The fine connected with failure to comply with this edict was set at not more than \$25.00 for the first offense and for a second offense within a year not less than \$10 and not more than \$50.

With as many dogs as there are wandering freely along the streets of the village, this would certainly be one fine way for the village coffers to be refilled. Believe the town would derive more revenue this way than with the radar unit stopping speeders. However, we choose to forget one law entirely—shut our eyes to that which goes on.

Police say it is the job of the county dog warden; the dog warden says it is not his duty to come into town. Just who is responsible for enforcing the village laws? Let's stop passing the buck and see to it that our laws are enforced or completely forget the drawing up of any further ordinances. Elected officials are not elected only for words, but for action. What are you going to do?

Primary and the General Election in November. That increase is just over \$23,000.00.

Single largest decrease in appropriations is that of Ditches, totaling a \$26,000 decrease. Commissioner Don Fisher told the News that last year's budget included money appropriated for the Adams Ditch project which has been brought to this year's budget instead.

It is also under a separate fund altogether, the Permanent Improvements Fund, as property owners will be assessed for the costs and the money will come back to the county.

The Permanent Improvements Fund did not appear in last year's budget as that called the Sheriff's Policing Rotary Fund, amounting to \$10,000. This fund, according to Fisher, was set up to take care of the additional costs of manning Ashley with full-time police protection once that village had no marshal. The money for this

BW BOARD

(Continued from Page 1)

Supt. Souder told the board that Clerk J. W. Buckingham borrowed \$80,000 in order to meet mid-January bills as the board had directed. The loan was made necessary because new revenue to the district will not be received until taxes are paid at the end of the year.

Souder explained that re-instating programs as promised during the operating levy campaign last spring had cost approximately \$50,000 to \$60,000. Questioned about the wisdom of increasing teachers' benefits, "If you didn't have the money," he replied. "Perfectly responded, 'If we had waited 'til we had the money in hand, we wouldn't have had the teachers.' His response was to the fact that teaching contracts are signed at the end of the year and run from September while new revenue is not received until the first of January.

In other business, the board employed two new teachers to begin second semester. Don Wurm, now doing OSU student teaching at BW, will take the vocational agriculture position vacated by Gary Stitzel. Sandra Churchill will be hired to teach the newly-created first grade class required because of increasing enrollment throughout the district at that grade level.

Mary Jane White and Frank Ando were hired as school bus drivers and drivers. Harold Ranneberger who has accepted full time employment elsewhere.

Member Richard Wetherbee will serve as board representative to the Citizens Advisory Council, as the board moved to rotate as representative to the group.

Resignation of Mrs. Sue Goshall from the council was accepted. Souder reported that insurance adjustments on the storage building gutted by fire will pay both for the district costs and building itself. The board moved to adjust the school calendar, making Feb. 21 the Washington birthday holiday instead of Feb. 14.

Members moved to pay for their own liability insurance out of their \$20/month minimum rather than having the district pay the tab as now allowed by law.

All these kids were out on the ice rink, a bird bath, but then came the alighting thermometer and those Christmas skates saw plenty of action. Doris says her twelve year old son was full of the weekend with youngsters thawing out for another try! Remember when you were that age?!!

Still Have Bluebirds: Those lovely little blue and orange birds which years ago were so numerous in this area have become almost extinct—at least in the village. Remember when we first moved to East Granville? We had many bluebirds in the orchard to the rear of the property, then came houses and houses and the bluebirds flew. However, Joe Schilder said he saw four of these little feathered beauties the other day. Wish they would return to the area.

Memories and Memos

37 for the birds and wild animals. A fine gesture!

Birds Are in News: See a birds are in the News this week. Mrs. Walter Linnahey told she had a pair of evening grosbeaks at her home Monday morning. No, no, no! Ignore! Are these common to this area? What do they look like? Bird feeders can certainly provide much entertainment. Good education, too, for kids and grown-ups alike. Notice so many martin houses in the village and how many see any martins around them. What is the reason?

Love, Compassion for Others: Tragedies so often bring out the best in people. Some foreign nations may term Americans cold but just let a winter fire wipe out a family and see how long it is before they have more than enough with which to start again. That is the heart of the real American.

Winter Brings Fun: It takes a bunch of kids to really enjoy winter weather and that bunch seemed to be gathered at the Gene Arnold home over the weekend. The Wampers purchased a plastic ice rink late in the fall. THE LIGHT TOUCH

Isn't modern industry amazing? We just saw a pair of orthopedic hot pants.

Little boy to father at dinner table. "I reject your values, starting with spinach."

Kids these days have one advantage we never had. By the time we found out how much our parents put up with, we were parents.

One of the main charms of having grandchildren is you can go home.

Sombody suggested they might allow silent prayers in school. What do you think happens every time they pass out report cards?

Macramé, Literature Classes Offered at YW This Winter

New items on the winter term program were introduced to attending area women by North Community YWCA staffers at their Open House Jan. 11.

Proceeding enthusiastically received dramatic readings by Mrs. Jean Weaver and Sal Perez which formed the morning's program. Mrs. Virginia Chapman, North Community director, and her assistants, Mrs. Ruth Sayre, outlined offerings of particular interest.

Coming up Jan. 25 and continuing through Feb. 1 will be a workshop in macramé led by Clara Creager. Mrs. Creager is a Westerville weaver who is becoming recognized in ever-widening circles for her work with loomed, non-loomed, and knotted pieces. Her popular classes in weaving have been a standard North Community feature for many years.

More recently, as both Mrs. Creager and craftswomen in general have become caught by the practical as well as the creative possibilities of macramé (knotting), she has included classes, workshops, and demonstrations of this technique in her teaching schedule.

Women who enroll in the macramé

workshop will be told, upon registration, which supplies they will need to bring with them on Jan. 25.

Also announced at the Open House was the formation of a contemporary literature discussion group to be led by Mrs. Sayre. Members of the group will read selected books, then meet at two-week intervals to discuss them.

"Remember, I'm the leader," Mrs. Sayre smiled. "I'm supposed to moderate and not give opinions of my own - if I can keep them to myself!"

Beginning on Jan. 20 with Dee Brown's "Bury My Heart at Wounded Knee," the group will continue with "Crisis in the Classroom" by Charles E. Silberman on Feb. 3, "Body Language" by Julius Fast on Feb. 17, and conclude with "The Female Eunuch" by Germaine Greer on Mar. 2.

Registrations for the macramé workshop, the literature discussion group, or any other of the North Community winter term offerings should be made weekdays, 9 a.m. to 3 p.m., at North Community YWCA offices in the First Presbyterian Church, Westerville.

Meals on Wheels Offered To County Aged, Disabled

Letters have been sent to doctors, clergymen, Farm Bureau councils, and granges in Delaware county to tell them about a new service called Meals on Wheels. It is a non-profit voluntary community food service for residents of Delaware county who are unable to prepare adequate meals for themselves.

Started in the city of Dayton, Ohio, the program will be expanded to include the county if enough persons want to use the service.

The purpose of Meals on Wheels is to help the aged, disabled and chronically or temporarily ill to supply them with nourishing food in their homes at a moderate cost, to assure them of a friendly interest, and to help them remain self-sufficient.

Two meals, one hot and one cold, will be delivered by noon five days a week, Monday through Friday. Preparing and packaging of all food is centered in the kitchen of Asbury United Methodist Church. Menus are planned with the help of two consulting nutritionists. All persons working in this service, with the exception of the cook, are volunteers. Volunteers act as chairmen of the day, pack the food, and deliver the meals in their cars at their own expense. The menus are varied and the food is attractively packaged.

Each customer is charged \$11.25 per week for the service and the initial minimum service is for one week, payable in advance. Meals on Wheels is a non-sectarian program serving persons, regardless of race, color or creed. The service has the approval of the Delaware County Board of Health.

Those who qualify are the aged, the handicapped, and those unable to prepare their own meals or who have no relatives near to help. Those with short-term or long-term illnesses are included and selected, special diets are considered.

Anyone interested in finding out more about this program should contact Mrs. T. E. Richards, 4879 Valley Rd., Leonardsville, Ohio 43034.

ph. 362-8132, or write Meals on Wheels, Asbury United Methodist Church, Delaware, Ohio 43015, or phone Asbury at 363-3611.

Fashion Fabric Fantasy to Offer New Clothing Trends, Sewing Techniques

Fashion Fabric Fantasy is coming to Delaware on Feb. 8 and Feb. 15 from 9:00-11:30 a.m. This is an Extension program offered on a county-wide basis to all homemakers interested in current clothing trends, new fabrics, and methods of sewing with these new fabrics. Mrs. Norma Deyo, extension clothing specialist, Ohio State University, will conduct both meetings. The content of each meeting will be different, so plan to attend both, if at all possible.

On Feb. 8, Mrs. Deyo will discuss consumer buying as it applies to the selection of fabrics. The manufacturing and performance of new fabrics and fibers will be studied. This

will be an excellent opportunity to bring yourself up to date with recent textile developments.

On Feb. 15, Mrs. Deyo will describe and show sewing techniques which are useful with today's modern fabrics.

Both meetings will be held at the Educational Building of the William Street United Methodist Church. A registration fee of 35¢ will be collected at each meeting. Coffee will be served by the Delaware County Home Economists in Homemaking.

If you would like to attend, make your reservations by calling the Extension Office, 362-1751. The size of our audience is limited so be sure to call soon.

Suds & Stitches

By Marian Whitney

Had good homemade mince meat pie Sunday. How good it was! The commercially - canned mince meat doesn't taste like the real stuff! Then, too, I used Alys Adams' recipe for pie crust and now - guess what - Weight Watchers again!

Many Gimmick Recipes

Seems just anything can go into a cake recipe. Remember years ago when all cakes were made with eggs of soda and sour milk or baking powder and sweet milk? That isn't the case any longer. Mrs. Pearl Campbell brings us two recipes which are from this unusual file:

Beer Chocolate Cake
2 eggs unsweetened chocolate
1 2/3 c. sifted, all-purpose flour
1/4 t. salt
1 1/2 t. baking soda
1/2 c. butter or shortening
1 c. sugar
2 eggs
1/2 c. beer or ale
1 c. heavy cream
1/2 t. vanilla
1/2 c. black walnuts
Melt chocolate over hot water; cool; sift together flour, salt, baking powder and baking soda. Cream

butter. Gradually add sugar, beating until light and fluffy. Add eggs, one at a time, beating well after each addition. Stir in chocolate. Add flour mixture alternately with beer and cream, mixing until well blended. Turn into two greased and floured 8-inch layer cake pans. Bake in 350 degree oven 30 minutes or until done.
Suds & Stitches gives us a recipe using Coca Cola:

Coca Cola Cake
Sift together: 2 c. sugar and 2 c. flour. Bring to a boil: 1 c. Coca, 3 T. cocoa, and 2 sticks butter. Pour into flour and sugar and mix. Add 1/2 c. buttermilk in which 1 t. soda has been dissolved. Add 2 beaten eggs; stir in 1 1/2 c. of miniature marshmallows. Pour into well-greased 9 x 13 inch cake pan. Bake 35 minutes in 350 degree oven.

Icing
Boil 6 T. coke, 3 T. cocoa, and 1 stick butter. Stir in 1 box confectioners' sugar. Add 1 c. chopped pecans and 1 t. vanilla.

From the Wild Game File:

Baked Squirrel
Soak squirrel overnight in salt water solution. Drain and cut into serving pieces. Roll in seasoned flour and brown well in hot oil. Place the squirrel pieces in a covered baking dish and for each squirrel add 1/2 c. milk and 1/2 c. cream or 1 half and half, small can of chopped mushrooms, 1/2 c. chopped onion, and 1/2 c. chopped celery. Bake in 350 degree oven until squirrel is tender.

Sunbury Couple Has Boy
Mr. and Mrs. Ronald Fuller of Sunbury are announcing the birth of a son Jan. 11 in Riverside Hospital.

Miss Ford is employed at St. Ann's Hospital and attends Columbus Technical Institute. Her fiancé is stationed with the United States Army in Korea.

It's an old saying, but it's never made more sense. There are some jobs in life that you just don't tackle by yourself. The preparation of your income tax should be one of them.

And that's where H & R Block, The Income Tax People, come in. H & R Block is America's largest tax service with more than 6,000 conveniently located offices to serve you.

Your H & R Block representative is specially trained and can provide information on legitimate income tax benefits and opportunities that the average man on the street doesn't even know exists.

For instance, do you know all about deductions for child care or casualty losses? Or, that if your income increased over the last few years, you may save over \$100 by "income averaging"? And tax dollars by "income averaging"? And even if you did, would you know how to go about "income averaging" to begin with? Probably not. And there's no reason why you should. After all, you're an amateur when it comes to doing income tax.

BUCKEYE VALLEY DEFENSES HIGHLAND 62-34

BARON-SCOT ACTION—Paul Nicodemus (42) and Jim Bryant (50) of Buckeye Valley and Mark Ragor (11) are involved in the action Friday night as the Barons beat the Scots 62-34.

Nicodemus goes high as he drives for a layup past Mickey Walker (31). Nicodemus finished with 12 points, just behind Bryant who is shown in the second photo. Buddy Salzer (43) and Ed Ward (45) attempt to block Bryant's shot as Paul Higgins (33) watches from the background.

The last picture shows Ragor as he controls a rebound with Larry Downing of the Barons backing off. Downing was also in double figures with 11.

SPORTS WINDOW

BY JACK BRENN

Basketball rating polls continue to cut Big Walnut this week, despite two impressive wins over AA competition Friday and Saturday nights. The Eagles lost 18 points in the UPI poll, from 60 to 42, although they did maintain their 11th place position. In the AP they dropped from 29 to 24, a loss of 5, and were joined in the 15th spot by Haron, the same number of points the Tigers had in 16th position last week. It's easy to see why Big Walnut doesn't gain in the polls, particularly the UPI, which is picked by coaches. The Mid-Ohio Conference has two representatives on the selection committee this year. In BW's Bob Shoemaker and Mt. Gilead's Olen Jackson. Jackson has been head coach at Mt. Gilead for a number of years and Friday night's defeat by 21 points is the second-worst loss his team has suffered since Dec. 13, 1969, when they went down to Wyndford 75-38—a 37-point defeat. (In the first non-league game between BW and MG last year the Eagles won 84-46, a 38-point margin, which tops the Wyndford spread.) Why is it then, you may ask, that he doesn't cast his vote for a fellow member Mid-Ohio school. It can't be because his team has played any other school who is currently receiving first place ballots. Truthfully I can't understand why he shouldn't vote for Big Walnut, not unless it's because one of his teams has never been able to beat Big Walnut. Looking back at the records, I see Big Walnut has a string of nine straight games going against Mt. Gilead, dating back to January of 1965 (7 years ago) when the Indians won 76-50. (And I almost positive Jackson wasn't head coach at that time.) It would be interesting to know why he doesn't pick Big Walnut.

And if it's a case of thinking they're not good enough, it would appear Big Walnut has a job cut out for themselves when they meet in that final non-league game of the regular season Feb. 18. Maybe Big Walnut takes more than winning the Mid-Ohio Title, winning by 21 or 38 points, outscoring opponents 924-

Buckeye Valley held Highland to only 37 shots from the floor Friday night as they won their sixth straight game 62-34. The victory helped BV's Mid-Ohio Conference mark to 3-0 while dropping Highland to 0-3.

The Barons raced off to a 12-1 lead with only Ken Kanagy's free throw saving the Scots before Paul Higgins dropped in a 2-point shot with 4:47 showing on the clock. At the

Mt. Vernon Snaps Barons' 6-Game Win Streak 51-41

Buckeye Valley's shooting was colder than the temperature in the Mt. Vernon gym Saturday night and when the event was over the Barons' 6-game winning streak went down the drain 51-41 to the Ohio Capital Conference league.

Mt. Vernon is 9-1 overall after the win and Buckeye drops to 8-3 on the season. The Barons host last place Cardington Friday night and Saturday take on winless Marysville on the Monarchs' court.

The temperature was 35 degrees in the Mt. Vernon gym and Buckeye beat that mark with their cold shooting, hitting only 14 of 46 for 30.4%.

Included in this figure is a frigid 6 of 26 for 23% in the second half. Despite their inability to hit the basket, the Barons were in the ball game until the end, after leading 22-21 at the half. They finished with 13 of 19 at the line while the Jackets hit 10 of 26.

BV finished with an 80 ORER while Mt. Vernon had 55. Turnovers show the Barons with only 11 while Mt. Vernon beat this with 8. The Barons pulled down 31 rebounds to 33 for the winners. Larry Downing hit 13 to pace BV while Jim Bryant had 10 and Keith Thompson 9.

JV's Lose First in 8 Games
Buckeye Valley Reserves saw their seven-game winning streak, dating back to the 31-25 loss to Worthington Nov. 24 broken as the Yellow Jacket futures posted a 47-38

triumph. The loss dropped BV to 8-2 on the season.

Buckeye dropped behind 12-4 at the end of the first period and were never able to get back in the game. Walter Fickie again paced the BV attack, hitting for 12 points.

The Barons were 12 of 33 for 36% from the field and 14 of 27 at the line while MV hit 15 of 48 for 31% from the floor and 12 of 17 for 70% from the line. BV rated 76 ORER while MV was 89. The Jackets controlled the boards 39-27 with Bruce Easterday the leader with 11.

Scots Drop 75-61 Contest To Hot Newark Catholic

Highland ran into a hot Newark Catholic team Saturday night and came home on the short end of a 75-61 score. The loss dropped the Scots to 3-10 overall. Friday night, Highland plays at Big Walnut and Saturday hosts Northridge.

Highland played with the Irish for the first half, hitting 11 of 26 shots for 42% in the MO that Newark earned 13 of 24. The Irish broke the game wide open in the second half, hitting 75% of their goals (15 of 21), to close with a game average of 54% on the boards.

The Scots shot well, 21 of 52 for 40%, but it wasn't good enough to overcome the fired-up Irish. Highland trailed in turnovers, giving the ball away 22 times to 16 for the home team.

Mickey Walker led Highland, hitting 20 points in the MO that Newark had 16. Newark had four players in double figures with Dawson the leader with 19.

Off the boards, Newark held a 28-18 advantage with Walker high for the Scots with 8, the same as Dawson for the home team.

Cold JV's Lose 48-46
Highland's Reserve team went down to the fifth straight loss as they dropped a close 48-46 decision to Newark. The Scot JV's are now 4-7 on the season and 0-3 in the Mid-Ohio.

Teenagers' Woes...

One of the most calamitous stages teenagers must pass through is the period when young skins are subject to a number of disorders—notably ACNE. Over-productive oil glands can cause this condition which makes skin more susceptible to bacteria. Starches, fatty foods and sweets encourage acne. While a diet high in vitamins is probably beneficial, important to helping to curb this condition is sufficient rest, proper elimination, reasonable skin care, proper food, outdoor exercise, and use of external medication with a record of beneficial results.

Let's have a few words now about prescriptions... they can do and relieve any of hundreds of human ailments. For a complete prescription service and all your medical supply needs, you can count on DEL. R. PHARMACY, Cor. Sandusky & Williams Sts., Delaware. Metzger gave a funny little skit imitating a couple talking on the phone. There were some comments on the new tile flooring in the kitchen and entry. Other News of Community

Our sympathy is extended to the family of Daniel Scholl on the death of his stepmother, Mrs. Helen Scholl, of Harlem.

Mr. and Mrs. Eskham Hayes, Mr. and Mrs. J. H. Warner of Delaware, and Mr. and Mrs. R. B. Warner of Ashley were Sunday dinner guests of Mr. and Mrs. Mike McMullen of Westerville.

Mr. and Mrs. Homer Lott and Mr. and Mrs. Eskham Hayes were Saturday evening dinner guests of Mr. and Mrs. Kenneth Mackley.

I want to wish a happy birthday to Mrs. Fannie Conklin. She will be 76 on Jan. 26. Many, many more! She is really one of my favorite people. Also a special friend, Mrs. Reba Newman, will be having a birthday Jan. 22. Hope you have a lovely day, Reba. She now lives in Reynoldsburg, but has lots of friends around Sunbury.

Mr. and Mrs. Sam Fawcett recently returned from a two week trip to Florida where they were guests of Mrs. Martha Louise Kaatz of Niceville. They were home a very short time then went to Cleveland to help their daughter, Mrs. Don Diederich, celebrate her birthday. These folks have really been on the go.

Sunday afternoon callers of Mr. and Mrs. G. L. Crowl were Mr. and Mrs. Don Ross, Ricky and Melody of Galena, Paul Reisinger of Delaware.

The fire up at Cedar Lake early Saturday morning really caused a flurry of excitement around our area. Mrs. Thomas Harris phoned over to the Robert S. Jones residence. They thought it might be the Ninings' house and Mr. Jones dashed outside barefoot to try to see where it was. Mrs. Jones said you could still see his tracks in the snow. Guess these were hurry tracks not happy tracks. Just good to know that folks who that much concern for their neighbors. Real great. Some men bring home the bacon but Vernon Rhoades surprised and delighted his wife last Wednesday evening when he came home from Cleveland and brought her a churn. This was a real old-fashioned kind and in perfect condition. He told that he had bought it in an antique shop in Lisbon. Mrs. Rhoades was really enchanted with it and told that it was to have a prominent place

in her new house. I can remember when churns were a necessity in almost every farm household. As a child when I visited my grandmother on the farm, I would help her at this task of churning. Often when the butter didn't come quickly, I thought it a never ending chore. After the novelty wore off, I was anxious to go play. Those are really very precious memories of the good old days gone by.

Mrs. Crowl had this old hen in the barn that had hatched out six little chicks. Last week when she went to move them to a warmer place she found that the mother hen and all the little chicks had been decapitated by some animal. The spring like weather had probably fooled that hen into starting her family too early to avoid the Easter rush.

This cold snap has been a real incentive to get some things done that I have been putting off doing like cleaning out clutter in some drawers. Made me two new berets, got a pocket in my second best coat, reversed three collars on Joe's shirts, read a good historical novel "Queen Elizabeth".

Dial-a-teen mission, an organization which was founded at Merritt Island, Fla., two years ago now has a station in Columbus. Troubled teenagers who would like to talk about their problems or need help can call 891-1060 Columbus. Since August, when the station started, more than a thousand calls have been received. I see where one of the senators is trying to get an appropriation of three million to establish half-way houses for displaced youth. But in so many instances we really have delinquent parents who have never lived up to their fullest obligation of parenthood. For the hand that rocks the cradle rules the world.

Saturday Night

is candlelight steak night at L-K

Bring your favorite date to L-K Saturday night and dine under the warm glow of candlelight. A delicious, full-course steak dinner is featured on the menu to make your evening especially enjoyable.

L-K BLUE RIBBON STRIP STEAK

The old timers will remember this steak as the "Butcher's Steak". In past years when they butchered on the arm — or when small proprietor butcher shops were still in vogue, the one piece of meat that was always savored for its tenderness, flavor, and delicacy is the very same steak which we call our Blue Ribbon Strip. This is the steak that graced the butcher's or the farmer's table following the butchering. It very rarely reached the market, therefore it became known as the butcher's' steak and did not become as well known to the general public. This steak is found in the front quarter of the beef inside the rib cage and therefore very easy to cut out of the beef without affecting any other part of the carcass. It grows lengthwise and only about one inch thick, therefore it is necessary to cut it with the grain. This is the main difference between the more familiar steak cuts and our Blue Ribbon Strip; but it comes closest to the Tenderloin in its overall tenderness and flavor. We hope you like it.

Farm Bureau's Effort to Deter Rural Crime

Delaware County Farm Bureau is off and running on the 1972 membership drive following the kick-off dinner meeting held Monday evening at Kilbourne United Methodist Church and hopes to reach the goal of 591 member families by Friday morning, Jan. 21.

The meeting, under the directorship of William Thurston, chairman of the 1972 drive, and Phil Davis, organizational director, set drive directives for the captains and workers attending. Captains throughout the county include Dave Lehner for Oxford, Troy and Delaware townships, Mrs. Wilson Cole for Thompson, Radnor and Marlboro townships, Mrs. Larry Moreland for Scotto, Concord and Liberty townships, Martin Fichtelman for Trenton, Porter and Berks, Mrs. Merrill Sheets for Berlin, Brown and Kingston, and Mrs. Clay Rammlersberg for Orange, Genoa and Harlem.

One of the highlights of the meeting was the announcement of the state-wide participation of the Farm Bureau in crime prevention through the posting of \$500 Reward signs on member farms for "information that leads to the arrest and conviction for arson, malicious injury to property, burglary, or other felonies committed on this property". The new Reward Program sponsored by the Ohio Farm Bureau and Delaware County Farm Bureau has been heralded by Sheriff Eugene Jackson as well as by the Buckeye Sheriff's Association. Jackson, pictured above looking at one of the signs being shown him by county president Richard Dawson, says he thinks it will be a deterrent to these crimes.

Each member family of Farm Bureau will receive one sign to post on the farm. Only Farm Bureau members may obtain the signs and they may have extra signs for 35¢ each. One of the metal signs must be posted on each farm covered by this plan. This is a new service of the Farm Bureau.

Dawson announced that three Farm Bureau members—Bill Fling, Eugene Thomas and Edgar Roberts—will serve on the Property Protection Service committee along with Sheriff Jackson. This committee will review claims for rewards in this county. The program begins Mar. 1. Some of the rules governing the Property Protection Service are: Person must be in good standing of
